

# Paper Composition

- Use the categorised paper sounds (and associated symbols) you discovered and created in the previous activity.
- Organise these sounds in an order, according to the timeline to create a meaningful and effective musical composition.
- You may include extra instructions to describe exactly how the sound is to be made.
- You might like to try to have gradual changes between sounds; try to achieve an overall "dynamic shape" from beginning to end.
- You may work in your own groups of two, three or four.
- Your work should be between 45 and 90 seconds long.
- Your group will perform your composition to the class.
